

Course at the Molecular Imaging Center (MIC),  
Department of Biomedicine

***Protein localization in the  
transmission electron microscope***

**Time:** 18th-20th of November 2009

**Place:** Electron microscopy lab, MIC, Department of  
Biomedicine, Bygg for Biologiske Basalfag, 6th floor.

**Staff:** Andreas Brech (EM Unit, Radiumhospital, Oslo), Jaakko  
Saraste, Anne Nyhaug and Endy Spriet (MIC, Bergen)

**Course fee:** 2.900 kr. Registration deadline: 6th of November 2009

**Program outline:** The course consists of introductory lectures,  
practical lab work and demonstrations on immunoelectron microscopy  
(IEM). The techniques covered in more detail include immunogold-  
labelling of ultrathin cryosections (post-embedding IEM) and  
immunoperoxidase electron microscopy (pre-embedding IEM)

***The course can accommodate only a limited number of participants!***
