

**PUBLISHING ISSUES AND INFORMATION USE
FOR PHD-STUDENTS
AT THE FACULTY OF MATHEMATICS AND NATURAL SCIENCES**

In November 2009 the Science Library offers PhD-students at the Faculty of Mathematics and Natural Sciences a series of courses addressing publishing issues, advanced literature searching techniques and information management. The Faculty highly recommends PhD-students participate!

The course will be taught in **English**, and consist of the following modules:

	Lessons	time	Content
Plenary sessions	Part 1: Scholarly literature	Monday 16.nov 12:15 – 14:00	Structural characteristics of scholarly literature Searching and retrieving scholarly literature Choosing 'high quality' scholarly literature Using scholarly literature in own works Follow the development in a subject field
	Part 2: Citation statistics	Monday 23. nov 12:15 – 13:20	The journals' impact factor, mean citation count and h-index. Examples from ISI WoS and Google Scholar Publication points according to the Norwegian system
	Part 3: Publishing	Monday 23. nov 13:40 – 15:00	Copyright issues and publishing Open Access publishing Self-archiving and institutional repositories
Workshops	PubMed	Tuesday 17. nov 9:15 – 10:00	Database features and hands-on searching
	CSA	Wednesday 18. nov 9:15 – 10:00	Database features and hands-on searching (ASFA, Georef, Entomology Abstracts, MGA)
	ISI WoS and Google Scholar	Thursday 19. nov 9:15 – 11:00 or Wednesday 25. nov 9:15 – 11:00	Database features and hands-on searching (JCR, ISI WoS, Inspec, Zoological Records, Biosis Previews and Google Scholar)
	Scifinder	Tuesday 24. nov 9:15 – 11:00	Database features and hands-on searching
	CABI	Tuesday 24. nov 11:15 – 12:00	Database features and hands-on searching
	MathSciNet and ACM	Wednesday 25.	Database features and hands-on

	Digital Library	nov 9:15 – 11:00	searching
Workshops	EndNote, basic	Wednesday 18: nov 10:15 – 12:00 or Friday 20. nov 9:15 – 11:00	Managing references (beginners) <ul style="list-style-type: none"> - Entering references - Choosing styles - Creating bibliographies - Using references while writing (MS Word)
	EndNote, experienced users	Thursday 26. nov 9:15 – 11:00 or Friday 27. nov 9:15 – 11:00	Managing references (experienced users) <ul style="list-style-type: none"> - Short repetition of main features - Adding fulltext to a reference - Creating a bibliography from multiple documents - Collaborating on an EN library - Creating own styles

The plenary sessions part 1-3 are open for everybody.

For the workshops for database search and reference use (End Note) the participants should register to the modules of interest.

You can sign up for the plenary sessions and the individual modules.

Please sign up on e-mail to vibeke.kyrkjebo@mnfa.uib.no before November 3rd.

Please note that if very few students sign up, the modules might be cancelled or participants moved to other times.

All workshop modules will be given in the AV-room at the Science Library.

The plenary sessions will be given in Auditorium Pi, 3rd floor, Johannes Brungst. 12, Carl Godske's House.

Where is the Science Library?

Johannes Brungst. 12, Carl Godske's House
